About

I'm from Indonesia and for now i live in Malang. I love make something that useful for the others like make an application mobile and i am prefer in mobile development using Flutter. Now i am still learning, because everyday the technologies is continues to develop.

Internship

I had an internship at Hummasoft and Angon Data in Malang, where I worked on website projects to mobile applications. I got a lot of knowledge there such as problem solving, UX / UI, collaboration, presentation, and many others.
