Hafid Ardiansyah

Student Software Engineer

hafidardiansyah.github.io/portfolio
hafidardiansyahh.gmail.com
Malang, Indonesia

Summary

Student Software Engineer with **+2 years** of experience in **developing application website and mobile,** blending art of design with the skill of programming to deliver engaging user experience through efficient application development, proactive feature optimization, the application can be used and useful by the user.

Experience

I had an internship at **Hummasoft** software company for 3 months and **Anggon Data** software company for 3 months, at Hummasoft I was the leader in a group to make a home buying and selling website application. At Anggon Data I was a UI / UX Design and Front-End Mobile Developer to create school attendance applications. I got a lot of knowledge there such as leadership, project management, collaboration, presentation, and many.
